Note.—In a Report by the Attorney and Solicitor Generals of England, in November 1802, on certain claims then made by the Duke of Atholl, they cite a portion of a Report to the Treasury from the Commissioners of Customs and Excise, which states, that previous to the purchase of the Isle of Man, the loss of revenue sustained by Great Britain alone amounted to 350,000 *l.* annually, or thereabouts. An increase, therefore, to the Imperial revenue of not less than 350,000 *l.*, which commenced from the year 1767, may be considered as one item of income derived from the purchase of the island.

EXPLANATORY MEMORANDUM AND SUMMARY.

THE returns of Local Taxation made to the Secretary of State pursuant to the 23 & 24 Vict. c. 51, for the latest period of 12 months preceding the month of June 1863, for which the different accounts are made up, comprise, in continuation of the returns for the preceding year, Church Rates, Sewers Rates, Drainage and Embankment Rates, Rates under the Act for the better lighting and watching of Parishes, Improvement Rates, Rates levied by Vestries and District Boards under the Acts for the better Local Management of the Metropolis, Tolls or Dues levied in respect of Markets, Bridges, and Harbours, accounts of the receipts and expenditure on account of Burial Boards, and abstracts of the accounts of Local Boards, furnished by the Local Government Act Office.

For each of the returns, of which the abstracts are prepared at the Home Office, forms are issued, framed so as to show the items of receipt and expenditure under the different headings given in the abstracts annexed hereto. In all the forms columns are inserted for the balances at the commencement and at the end of the year, whereby accuracy in the accounts is secured, but much labour is occasioned in addition to the arrangement of the returns, and the casting up of the different columns, as every return requires to be closely examined, and many corrections and explanations are found necessary. In but a small proportion of the Church Rate returns do the balances brought forward agree with those left in the previous year. The correction of these returns in this respect has not been attempted.

The Church Rate returns are arranged as for the preceding years, according to dioceses, Church Rates, the total amounts under each heading in the form being given for each diocese, and a general abstract of the whole. The names of 11,894 parishes, districts, &c., from which returns were received, will be found in the Abstract. In 9,017 of these the amounts of receipt and expenditure are shown, the remaining 2,877 being "nils." These numbers for the preceding year were respectively 12,408, 9,134, and 3,274, the total number of returns received for 1863 being less than the number for the preceding year by 514. The total amount of Church Rate shown in the returns is greater than the amount for the preceding year by 3,267*l*. The decrease in the number of returns is chiefly in the "nils," and is attributable in a great degree to Chapelries, &c., in which the returns of former years showed that no Church Rates are levied, having been struck off the list, and not applied to for returns last year. In the amount of secured debt shown in the returns there is a decrease of 17,723*l*, as compared with the amount for the preceding year. This arises, no doubt, in a great degree from the omission on the part of the Vestry Clerks or Churchwardens to insert the amount of such debts in their returns. In the Diocese of Lichfield alone a difference of 6,662*l*. appears in the amounts shown in the returns for the two years.

Returns have been furnished for each of the Commissions of Sewers, included in the Sewers Rates. Abstract for the preceding year. The amount of rate levied during the year, exclusive of the City of London Commission of Sewers, was 35,796*l*, being an increase of 4,676*l*, or 15 per cent. on the amount for the preceding year. The amount levied by the City of London Commission was 16,630*l*, or 490*l*. less than the amount for the preceding year. The amount borrowed during the year on the security of the rates appears to have been 7,300*l*, while 1,664*l*. was paid off, an increase of 5,636*l*. being thus made to the bonded debt, which amounted at the close of the year to 14,651*l*. The cost of salaries and management for these Commissions, as shown in the returns, is upwards of 26 per cent. on the amount of rates levied.

In addition to the foregoing, seven Commissions appear to have been issued under the Land Drainage Act, 1861, for which no returns have yet been made. Land Drainage Act, 1861.

In the Abstract for 1863, the names of 159 Commissions or Districts for Drainage and Embankment will be found, including the whole of those which were given for the preceding year, with the exception of Glatton and Holme District, in Huntingdonshire, where, as was stated, the drainage is effected by a private steam engine, and no rates are collected. From seven Commissions or Districts, which did not appear in the Abstract for the preceding year, returns have been received for 1863, viz., Upper Ramsey, in Hunts, under an Act of 15 Geo. 3, Bottesford and Greetwell, in Lincolnshire; the Eau Brink, the Ouze Banks, 3d district, and the Ouze River Haling Commission, in Norfolk; and Norton Campsall, &c., in Yorkshire. Drainage Commissions.

The amount of rates and rents levied for these Commissions or Districts was 149,283*l*, being an increase of 7,230*l*, or upwards of 5 per cent. on the amount shown for the preceding year.

The amount borrowed during the year was 61,550*l*. The amount of bonded debt paid off was 9,024*l*, an increase of 52,526*l*. having therefore been made to the bonded debt, which

which amounted at the close of the year to 194,884 *l.* The cost of salaries and management is above 8 per cent. on the amount of rates, &c. levied.

Lighting.

In the Abstract for 1862, the names of 332 places were given from which accounts had been received of the receipts and expenditure for lighting under the 2 & 3 Will. 4, c. 90. In the present Abstract returns from 341 places will be found. From 16 of these no returns had been received for 1862, while the following names, which appeared in the Abstract of that year, are now omitted,—the parish of Lanchester, for which is substituted the township of Conside and Knitsley; Thurston, which is included in Hartlepool; Hartley Wintney, where there was no expenditure, the rate having been opposed; the township of Newsham and South Blyth, where the Local Government Act has been adopted; Crick-lade, St. Sampson, where the lighting rate is stated to have been discontinued; and Fordon, where no rate was levied.

The amount of rate levied under this Act, as shown in the returns for 1863, was 36,837 *l.*, being less than the amount for the preceding year by 5,420 *l.*; sums amounting to 2,600 *l.* appear to have been borrowed during the year, and the total debt secured upon the rates, remaining at the close of the year, was 4,396 *l.*

Improvement Com- missions.

In the Abstract for the preceding year the accounts of 116 Improvement Commissions were given. In the present Abstract returns will be found for the whole of these (excepting Preston, which is under the Local Government Act), and for 20 additional places. The amount of rates, tolls, and dues levied during the year, as shown in the Abstract, was 326,689 *l.* The amount shown in the preceding Abstract was 290,779 *l.*; 150,442 *l.* was borrowed on security of the rates during the year, the accounts of the preceding year having shown 41,717 *l.* under this head. The salaries and establishment charges amounted to 42,920 *l.*, or upwards of 13 per cent. on the amount of rates, &c. levied. The amount for interest, annuities, and principal paid off was 122,062 *l.* The amount of secured debt remaining was 1,568,617 *l.*

Local Management of the Metropolis.

Returns of the receipts and expenditure of the different Vestries and District Boards under the Acts for the better Local Government of the Metropolis are given in the same detail as for the preceding years. The account of rates levied during the year, exclusive of the main drainage rate, was 846,303 *l.*, being 15,563 *l.* more than for the preceding year. The amount of main drainage rate was 149,036 *l.*, including, for the City of London, 16,417 *l.* (this sum has been placed, in error, in the Abstract, in the column for general rates), showing an increase of 6,302 *l.* on the amount for the preceding year. The sum of 48,903 *l.* was borrowed during the year. The payments on account of interest, annuities, and loans paid off amounted to 129,325 *l.* The amount of bonded debt remaining was 374,696 *l.*

Markets, &c.

Forty-seven Returns for Markets or Fairs are included in the present Abstract, being one less than for the preceding year. From Devonport, Macclesfield, and Upton-on-Severn, for which Returns were made for the preceding year, none have been received for the present; while from Bath, Bangor, and Fishguard, which did not appear in the preceding Abstract, Returns have now been furnished. The amount shown in the Abstract, as received from Tolls or Dues, is less than the amount for the preceding year by 5,363 *l.*, or upwards of 10 per cent. The amount received as Rents exceeds the amount for the preceding year by 6,308 *l.*, or upwards of 34 per cent. The total receipts also are greatly in excess, in consequence chiefly of the large sum of 138,000 *l.*, borrowed for the Islington Market during the year, being included. This sum, however, appearing also on the opposite side of the Account as having been paid off within the year, the increase in the total amount of bonded debt remaining at the close of the year is only 20,170 *l.*

Bridges, &c.

Under Bridges and Ferries 98 Returns will be found; 77 for Bridges, 19 for Ferries, and 2 under Navigation Acts. In the Abstract for the preceding year 48 Bridges were included and 10 Ferries. A list having been obtained of all Bridges and Ferries upon which Tolls are paid in the different counties, 584 forms were issued pursuant to the Act, for Accounts of the Receipts and Expenditure. From the answers received, it appeared with regard to Bridges, that in some cases they were connected with the adjoining Turnpike Trusts, and the receipts and expenditure included in the Annual Statements of Turnpike Accounts: in others, that the Tolls were the private property of individuals or companies, and exemption was claimed under the eighth section of the Act. With regard to Ferries, it appears that generally they are private property; that the Tolls are let; that the amounts are inconsiderable; that no regular accounts of receipts and expenditure are kept, and no satisfactory statements can be rendered. And Returns from other places than those included in the present Abstract are not likely to be obtained. The total amount of Tolls or Dues collected, as shown in the Abstract, is 124,057 *l.* The amount borrowed during the year on the security of the Tolls was 48,316 *l.* The amount for salaries was 16,367 *l.*, or upwards of 10 per cent. on the receipts, exclusive of money borrowed. The amount of Interest and Annuities paid was 25,468 *l.* The amount of Debt paid off was 7,990 *l.* The Bonded or Mortgage Debt remaining at the close of the Accounts was 1,243,505 *l.*, of which 554,552 *l.* was on Waterloo Bridge across the Thames. The arrear of Interest was 2,992,022 *l.*, of which 2,959,000 *l.* belongs to the same Bridge.

Harbours.

From the following places, for which Returns of Harbour, &c. Tolls or Dues were received for the preceding year, none have been made for 1863; viz., Cardigan Pier and Harbour, Exmouth, Eyemouth, Gateshead Quay, Hayling Bridge, Little Ferry Harbour, Padstow, Penzance, and Stratton.

The amount of Tolls or Dues shown in the present Abstract, viz., 1,047,745 *l.*, exceeds the amount for the preceding year by 4,778 *l.*; and in the amount for 1862 was included 4,720 *l.* for the above-named places, for which no Returns have been made for 1863. The large amount of 242,768 *l.* was borrowed during the year on security of the Tolls or Dues, while 116,258 *l.* of Mortgage or Bonded Debt was paid off; 613,518 *l.*, or nearly half the total expenditure, was paid for Interest and Annuities. The Bonded Debt remaining, as shown in the Abstract, was 3,998,989 *l.*, to which must be added the debt upon those places from which Returns were not received, and which, as shown in the preceding Abstract, amounted to 84,288 *l.*

In the present Abstract the names of 333 Burial Boards will be found from which Burial Boards. Returns have been received, including all those given for the preceding year, with some additional. The receipts for the year, as shown in the Abstract, amounted to 176,219 *l.* 9 *s.* 3 *d.*, exclusive of 106,227 *l.* 13 *s.* 4 *d.* borrowed during the year. 50,651 *l.* 9 *s.* 3 *d.* was expended in buildings and in the purchase of ground; 110,095 *l.* in payment of debt and interest. The secured debt remaining at the close of the accounts was 1,139,198 *l.* 5 *s.* 3 *d.*, being an increase of 59,068 *l.* 7 *s.* 3 *d.* on the amount shown in the Abstract for the preceding year. The different items of receipt and expenditure are given in the same detail as for preceding years. The sums received from the Poor Rates towards the expenses of Burial Boards are no doubt included in the Poor Law Returns of the amount of poor rate levied; and in like manner, sums levied by Councils of Boroughs, or by Local Boards, acting as Burial Boards, are included in the respective accounts of those bodies.

The following are the amounts of Rates, Taxes, Tolls, or Dues, shown in the Abstract as levied during the year by the different Vestries, Commissioners, &c. (Burial Boards excepted) with the amount of Secured Debt remaining at the close of the accounts in each case.

E R R A T A.

THE total amount of Church Rate stated in the Explanatory Memorandum is less than the amount shown in the Summary of the different Dioceses by 1,212*l.*, in consequence of the omission from the former of the amount given in certain Supplementary Returns. The total amount of Church Rate is 237,386 *l.*: the excess above the amount for the preceding year, is 4,479 *l.* The total amount of Rates, &c. levied, is 3,543,511 *l.*

Note.—There were several errors in the totaling of the first issue which were not discovered in time for correction, but they have been accounted for in the Summary, in the balances of which there is still a difference of 4*l.* 10*s.* to be brought forward in the Return for the next year.

(a) Included in the return for the parish of Bishopsteignton.
(b) There are no church rates collected in the parish of Ottery, St. Mary, as the Church Corporation is charged under their charter with the repairs of the church.
(c) We have not, and never had, a church rate for this new parish, as the repairs of the church come out of the seat rents, and for any large repairs there is an Endowment Fund of 300*l.* invested with the Incorporated Society for Building Churches, so that no church rate ever can be levied, nor intended to be, the repairs being otherwise provided for as herein stated.

(a) There is an old endowment in aid of the "Church levies" (*inter alia*) in the townships of Hanbury and Hanbury Woodend; but it is in the hands of private trustees, and of late years no payment has been made to the churchwardens from this source.
(b) The rates are levied and raised by the parish of Burton-on-Trent, which pays the expenses of Stretton.
(c) The church-rate in this township is collected and expended by the Tamworth churchwardens.
(d) The small "Endowment fund in aid of rates" is allowed to accumulate.

(a) A rate of 2d. in the £. granted by the vestry at their annual meeting in April 1862, was not levied, as the inhabitant householders of the parish unanimously appropriated to church purposes a sum of 40l. out of a fund at their disposal, which sum covered the expenses of the church, usually paid by a rate.
